Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 8/13/04 has been entered. Claims 1, 3, 4, 6-11, and 14-32 are pending in this application.

Drawings

2. The drawings filed on 6/30/00 are acceptable subject to correction of the informalities indicated on the attached "Notice of Draftsperson's Patent Drawing Review," PTO-948. In order to avoid abandonment of this application, correction is required in reply to the Office action.

The correction will not be held in abeyance.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 16-32 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 16-21, 30 and 31 recite the limitation "said first computing device" in lines 5-6 of claim 16. There is insufficient antecedent basis for this limitation in the claim 16; and therefore in the claims 17-21, 30 and 31.

Claims 22-27 recite the limitation "said first computing device" in lines 6-7 of claim 22. There is insufficient antecedent basis for this limitation in the claim 22; and therefore in the claims 23-27.

For the purpose of this Office action, the examiner assumes that the limitations "said first computing device" recited in claims 16 and 22 are changed to "a first computing device". Applicant is required to affirm or reverse this assumption in response to this Office action.

Regarding claim 32, the phrase "a user may interface" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

For the purpose of this Office action, the examiner assumes that the limitations "a user may interface" recited in claims 16 and 22 are changed to "a user interfaces". Applicant is required to affirm or reverse this assumption in response to this Office action.

Allowable Subject Matter

5. Claims 1, 3, 4, 6-11, and 14-32 are allowed.
6. The following is an examiner's statement of reasons for allowance: Applicant's amendment received 8/13/04 has replied to every ground of objections and rejections recited in the final Office action mailed 4/14/04 by providing clear explanations and amendments to the claims. Further, in the Remarks/Arguments, applicant has clearly pointed out the patentable

Art Unit: 2674

novelty features and the differences between the claimed invention and the cited prior art of Mital (U.S. Patent No. 5,878,282) and Allport (U.S. Patent No. 6,256,019), see pages 11-19 of the Amendment.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

7. Applicant's arguments, see pages 11-19 of the Amendment filed 8/13/04, with respect to the amended claims 1, 3, 4, 6-11 and 14-32 have been fully considered and are persuasive; and has overcome the prior art cited in the prior Office action.

Conclusion

8. This application is in condition for allowance except for the following formal matters:
- Corrected drawings.
 - Amend claims 16, 22 and 32 to overcome the rejections under 35 U.S.C. 112, second paragraph, as suggested above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
